JICA Knowledge Co-Creation Program for Long Term Participants (JICA Development Studies Program)

General Information on Master's Degree and Internship Program of African Business Education Initiative for Youth (ABE Initiative)

JFY2027

This handout provides an overview of the "Master's Degree and Internship Program of African Business Education Initiative program/course (ABE Initiative)", which is one of Japan International Cooperation Agency (JICA)'s Knowledge Co-Creation Program (Long-Term). The program will be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between respective governments.

Each country may have its own schedule and/or qualifications for the program. With regard to the additional information, please contact our JICA overseas office in charge of your country.

The objective of the Knowledge Co-Creation Program (Long-Term) is to offer opportunities to people from developing countries to study at Japanese universities and to help them build their network of people. This is intended to support the human resource development plans of the governments of developing countries and Japan, and eventually to expand and strengthen bilateral ties between the developing countries and Japan.

0. Background

What is JICA Knowledge Co-Creation Program (KCCP)

The Japanese Cabinet revised the Development Cooperation Charter in June 2023, which stated, "In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together." JICA believes that this 'Knowledge Co-Creation Program' will serve as a foundation of mutual learning process.

What is JICA Development Studies Program (JICA-DSP)

Japan is the very first country and still is one of the very few countries that has modernized from a non-Western background to establish a free, democratic, prosperous, and peace-loving nation based on the rule of law, without losing much of its tradition and identity. With such belief, JICA invites future leaders from partner countries to Japan under KCCP, and offers them opportunity to learn about Japan's unique modernization and development experiences. This special program is called, JICA Development Studies Program (JICA-DSP).

JICA-DSP is provided to all participants of KCCP during their stay in Japan. JICA will offer participants various opportunities through which they can learn about Japan's modernization and development experiences.

1. Overview

Until now, JICA has provided training programs as a part of technical cooperation in various fields. To strengthen networks between the target countries in respective fields, JICA established a new long-term training program to foster young/middle-aged bureaucrats, academicians and leading human resources in various fields of target countries including both private and public sector, who can influence policy-making processes in their countries, contribute to socioeconomic development in the near future or strengthen business connection between Japan and Africa.

“ABE initiative” stands for “Master’s Degree and Internship Program of African Business Education Initiative”. This program was announced at TICAD V in 2013. Participants from Africa can get opportunities to study at Japanese universities as well as to do internships at Japanese enterprises. ABE Initiative builds on the concept that there is a need for human resource development in both private and public sectors of Africa through cultivating a strong human network between Japan and Africa.

For more detail of the ABE initiative, please check the below

https://www.jica.go.jp/africahiroba/business/detail/03/ku57pq00001jwm0b-att/abc_pamphlet_en.pdf

2. Objectives

- (1) To foster human resources for industry and business that will contribute to and sustain Africa’s economic growth.
- (2) To foster human resources who can become a bridge, connecting businesses in Japan and Africa.

3. Course Outline

The course consists of the acceptance of scholars from 54 countries from all over Africa.

Applicants may select the university to which they wish to apply from the universities which have concluded an agreement to accept JICA participants on the condition that the applicants pass the entrance examination of the selected university. Detailed information of these partner universities will be provided separately.

Proposed research topics should consist of subjects that contribute to government policies on sustainable development (Examples: Administration/public policy, finance, public finance management, international politics/diplomacy, regional research, business, international trade/investment, disaster risk reduction, maritime issues etc.)

In addition to curriculums of the master's courses, activities such as short-term programs (e.g. Understanding the Japanese Development Experience¹, Training of Japanese Language, and Networking Event), and internship programs will be planned in order to enrich the participants' academic and personal experience of their courses of studies at the universities.

Internship at Japanese Private Companies

Accepted applicants will be participating in internship programs at public or private entities during their stay in Japan (during summer break, after graduation, etc.). JICA will prepare the contents and schedule of the internship in close consultation with the participants and host organizations. In principle, no reward or compensation should be paid to the participants or host organizations.

4. Durations

September 2027 – August 2030 (In maximum period)

- 6 months as a research student if applicable
- 1 or 2 years as a Master's student
- Up to 6 months of post-graduation internship for interested participants.

Applicants must follow each university's application procedure after the screening. If the applicants withdraw their applications after their official applications to the universities, applicants must inform them of their withdrawal to the university by letter.

(4) Points to be Noted regarding Procedures

Fees for English proficiency test can be reimbursed only once when the general entrance examinations are taken. Details of the reimbursement vary by each area and should be consulted with the nearest JICA overseas office of each candidate. JICA shall determine whether the candidate is eligible to participate in training in Japan. JICA shall make a decision on acceptance or rejection based on several factors such as entrance examination results, planned number of participants, medical examination results and others. Reason for the decision will not be disclosed.

10. Schedule

There are mainly following four selection processes: (A) Selection by JICA office in each country, (B) Selection by Japanese universities.

Flows:

(A) Selection in each country

(1) 1st Selection

[Necessary Actions for Applicants for this selection]

Each applicant needs to submit JICA's Application Documents by the deadline set by JICA office in the applicants' country (basically end of September).

Period	Aug 2026 - October 2026 (basically end of September) ※Please check with the JICA office in the country of your nationality.
Contents	Selection of the submitted JICA's Application Documents
Objectives	To check qualifications and requirements of each applicant. To check applicants' understanding of the program objectives and working experiences/educational background in the context of the "Eligible Participants" (shown in the section 2.).
Result	Applicants who pass this selection can proceed on to the 2 nd Selection.

(2) 2nd Selection

[Necessary Actions for Applicants for this selection]

Each applicant needs to be interviewed.

Period	Aug 2026 – End of October 2026 ※Please check with the JICA office in the country of your nationality.
Contents	Interviews by JICA office, etc.
Objectives	To check applicants' capability of contributing to the achievement of the course objectives addressing Africa's development challenges after the program.
Venue	To be determined. (JICA office in the country of your nationality will announce.)
Result	The applicants who pass this selection can proceed on to the 3 rd Selection. *

(B) Selection by Japanese universities

(1) Pre-matching (3rd Selection)

Period	December 2026 - January 2027
Contents	Document screening by Japanese universities (mainly "Research Plan" of the JICA's Application Documents, the Undergraduate degree graduation certificate, and Academic transcript)
Objectives	To match applicants with university courses/supervisors
Selection	JICA will send JICA's Application Documents to the applicants' desired

	universities (from first choice to second choice.) Universities will examine the documents to check if the applicant's field of study and research plan are matched with the courses/supervisors.
Result	The applicants who pass this selection can proceed on to the 4 th Selection. JICA will inform these applicants of the name of university where the applicant can apply. Applicants are then required to prepare the necessary application documents and submit them directly to the university.

(2) 4th Selection (Final Selection)

[Necessary Actions for Applicants for this selection]

Each applicant needs to check the necessary application documents set by the desired university. Then, he/she needs to submit the application documents directly to the university by the deadline set by the university.

Please note that even if an applicant receives positive matching results from two universities, the applicant may submit a formal application to only one university. Multiple applications to universities at the official application stage are not permitted under the ABE Initiative.

During this selection process, each applicant may be interviewed depending on the university's selection process.

Period	February 2027 – End of July 2027 (approximately)
Contents	Selection of submitted university's application documents and interviews by Japanese universities
Objectives	To select the final candidates (to be proceeded to official approval)
Venue	If necessary, using zoom, Microsoft Teams, or other means for interviews
Selection	Universities will screen the applicants through submitted university's application documents and interviews.
Result	The applicants who pass this selection (and JICA adjustment if necessary) will be selected as successful candidates of the program.

[NOTES]

JICA adjustment: JICA may adjust the number of candidates after the 4th Selection based on a balance of the number of candidates from each country. Therefore, some of the applicants who pass the 4th Selection may not be selected as successful candidates of the program. **The notification by JICA is the final result. Be reminded that the result you receive from the university prior to JICA's result is not the final one.**

Participants would be notified of the results regarding the acceptance or rejection of participation in this program from July to the beginning of August in 2027.

Approval of the Successful Candidates: Successful candidates (except from Private Sector) who pass the 4th Selection (and JICA adjustment if necessary) must be officially approved as participants of the program by the Steering Committee/the respective government and JICA. The successful candidates' status as "officially dispatched student" should be endorsed by their home countries' governments.

[NOTES]

Applicants can be admitted to the program as either 'Regular students' or 'Research students', depending on the university.

Regular students are full time students that have passed, and are judged to possess the academic ability equivalent to the entrance examination for the official Master's course the university of admission.

Research students are part-time students who have not yet passed, but have the academic potential to pass the entrance examination for the official Master's course of the university of admission. They will utilize their time as a research student to prepare for the entrance examination. Research students can join lectures, receive instructions from professors, and make use of university facilities. However, the period for being a research student is limited to six (6) months. Participants as research students are requested to study hard and must take official examination for the Master's course within six (6) months. If failed, they would no longer be able to continue with the program, and would have to return to their home country immediately.

There are mainly three types of universities :

- ① The university only accepts applicants as 'Regular students'.
If an applicant passes the 4th Selection of the above university, the applicant would be admitted as a 'Regular student'. Check the 'University Information' for details.
- ② The university only accepts applicants as 'Research students'
If an applicant passes the 4th Selection of the above university, the applicant would be admitted as a 'Research student'. The applicant would need to take the official examination to become a 'Regular student' within the first 6 months of the program and if successful, would become a 'Regular' student. Check the 'University Information' for details.
- ③ The university accepts applicants as both 'Regular students' and 'Research students'.
During either the 3rd Selection or the 4th Selection, the university would decide whether the applicant would proceed as a 'Regular student' or a 'Research student', depending on the academic ability of the applicant. Even if an applicant applies as a 'Regular student', the university may give out acceptance notification to the said applicant as a 'Research student'. Check the 'University Information' for details.

Schedule of After the local selection.
